1. CAMHS, 13

Meetings - prof. - important to have prof directly involved - first meeting was strategic but encouraged prof with direct knowledge to be involved in other meetings.

stated things no way MHA - shows openness.
felt must be other way to merge.
try to pull apart why other options didn't work/
want work now.

time - been so long got time to explore
fully. Unpredictable risks, taking time,
make sure prof need to be involved they are involved.

management of agreement - try to plan it so
And it could go smoothly - start free -
not want to prolong decisions

2a - analysed dark risk
looks for strengths & protective factors
looks for positives
How can we get back to what works.
help define what info we need
Actual fully the info you need.
Sometimes/understand don't have all info.

2b - peer discussion with colleague.
lonely place as AMHK as responsible - good to
talk & have healthy disagree. explore what info missing.

1. - draw on all experience in team.
use as sound board
helps identify what isn't known.

2. - person - centred
not diagnoses + treatment plan or risk
think about as a person.
medical view dominant → with general public + health.
inc families

3. - who info comes from
range of expertise, knowledge
not just applying law
behind / prof values, knowledge acquired over
~~time~~
experience! prac - wealth of exp.

4. - more used - like to know what best practice
is. See more evidence
based.

Refers exercises with to work with risk +
be proactive. Some determine to engage.

more formalised / accepted practice
