

## Advent Calendar

Managed to get across the message that MHAA's are a last resort so that no agency calls us before trying absolutely everything else first. Educated partner agencies & colleagues.

- med review with psych?
- social stressors - offer help
- home treatment?
- Informal admission?
- Crisis bed?
- Involve more support in home, family etc.
- Improve/increase protective factors.
- Build on daytime activity -
- Attendance at farm eg.
- Help with benefits/debt problems
- Introduced proforma of what has to happen before Referral
- Developed triage form for AMHS taking refs.

Culture has changed, only planned MHAA's, fewer beds,
